***Examiner's Amendment***

1. The examiner's amendment to the record appears below. The amendment addresses the first line of the specification, which discloses the continuity information related to the application. Because the changes are directed at omitting attorney docket numbering information, and adding information indicating the status of related applications, the changes do not require authorization by the applicant.

***Specification***

2. The first sentence of the specification has been amended to:

This application is a 371 of PCT/US9923134, filed 10/06/1999, which claims benefit to provisional application 60/103,310, filed 10/06/1998.

***Oath/Declaration***

3. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: Non-initialed and/or non-dated alterations have been made to the oath or declaration. In particular, the address of inventor 'Masliah' was changed without initialing and dating the changes. See 37 CFR 1.52(c).
